Section 1 - Chemical Product and Company Identification

Product/Chemical Name: ZENIPOM  
Description: INCI: Octyldodecyl Dimer Dilinoleyl Alcohol/Succinic Acid/Copolymer, Punica Granatum (Pomegranate) Seed Oil  
CAS No: 874013-21-5/84961-57-9  
Manufacturer: TC-USA  
Address: 34 Clayson Rd.  
Toronto, Ontario, M9M 2G8  
TEL 800 915 0066  FAX 416 741 6642  
Use: Dimerized polymer with emulsification, dispersing, conditioning and glossing properties for diversified uses in cosmetic and personal care products.

Section 2 - Hazards Identification

Classification  
Classification and Specific Hazards: According to EC Directive 1999/45/EC, this product is not classified as a “hazardous substance”. According to 29 CFR 1910, this product does not contain any active material considered hazardous.

Labeling  
Pictograph: No symbol  
Signal Word: Not applicable  
Hazard Statements: Not applicable  
Precautionary Statements: Not applicable  
Other Hazards Which Do Not Result in Classification: Not applicable

Section 3 – Composition/Information on Ingredients

Ingredients: Octyl Dodecyl Dimer Dilinoleyl Alcohol/Succinic Acid/Copolymer, Punica Granatum Seed Oil  
Process Method: Proprietary conjugation reaction

Section 4 - First Aid Measures

Inhalation: Short-term harmful health effects are not expected from vapor-generated at ambient temperatures. If first aid is required, move victim to fresh air.

Eye Contact: May cause some moderate eye irritation. Flush immediately with water for 15 minutes. Obtain medical attention if severe irritation occurs.

Skin Contact: May cause some irritation or discomfort. Remove contaminated clothing and wash with soap and water.

Ingestion: May cause abdominal discomfort, nausea, vomiting and diarrhea. Give two glasses of water. Do not induce vomiting. Obtain medical attention.

Protection of First Aiders: Boots, gloves, goggles. After first aid, get appropriate in-plant paramedic, or community medical support.
**Section 5 - Fire-Fighting Measures**

**Fire and Explosion Hazards:** NFPA Flammability classification 1

**Flash Point:** >250°C done by Pensky–Martens closed cup

**Flash Point Method:** ASTM D-93

**Extinguishing Media:** Use water spray, carbon dioxide, alcohol type or universal type foam applied in accordance with manufacturer’s instructions.

**Fire-Fighting instructions:** Do not release runoff from fire control methods to sewers or waterways.

**Fire-Fighting Equipment:** Because fire may produce toxic thermal decomposition products, wear a self-contained breathing apparatus (SCBA) with a full facepiece operated in a pressure-demand or positive-pressure mode.

**Safeguards (Personnel):** Review FIRE FIGHTING MEASURES and HANDLING (PERSONNEL) sections before proceeding with clean up. Use appropriate PERSONAL PROTECTIVE EQUIPMENT during clean up.

**Spill /Leak Procedures:** Collect for disposal in accordance with applicable Federal, State, or local regulations.

**Containment:** For large spills, dike far ahead of liquid spill for later disposal. Do not release into sewers or waterways.

**Regulatory Requirements:** Follow applicable OSHA regulations (29 CFR 1910.120).

**Section 6 - Accidental Release Measures**

**Environmental Precautions:** Follow applicable OSHA regulations (29 CFR 1910.120).

**Safeguards (Personnel):** Review FIRE FIGHTING MEASURES and HANDLING (PERSONNEL) sections before proceeding with clean up. Use appropriate PERSONAL PROTECTIVE EQUIPMENT during clean up.

**Spill /Leak Procedures:** Collect for disposal in accordance with applicable Federal, State, or local regulations.

**Containment:** For large spills, dike far ahead of liquid spill for later disposal. Do not release into sewers or waterways.

**Regulatory Requirements:** Follow applicable OSHA regulations (29 CFR 1910.120).

**Section 7 - Handling and Storage**

**Handling Precautions:**

- **Technical Measures:** (Personnel) Safety glasses and PVC gloves!
- **Protection Against Explosions and Fires:** Keep away from open flame.
- **Storage Requirements:** Store in cool (ideally 15 – 25°C), dry, tightly closed container. Keep container tightly closed.

**Section 8 - Exposure Controls / Personal Protection**

**Precautionary Statements:** Never eat, drink, or smoke in work areas. Practice good personal hygiene after using this material, especially before eating, drinking, smoking, using the toilet, or applying cosmetics.

**Engineering Controls:** No special engineering controls are required under normal use.

**Ventilation:** Provide general or local exhaust ventilation systems to maintain airborne concentrations below OSHA PELs (Sec. 2). Local exhaust ventilation is preferred because it prevents contaminant dispersion into the work area by controlling it at its source.

**Administrative Controls:**

- **Respiratory Protection:** Seek professional advice prior to respirator selection and use. Follow OSHA respirator regulations (29 CFR 1910.134) and, if necessary, wear an MSHA/NIOSH-approved respirator. Select respirator based on its suitability to provide adequate worker protection for given working conditions, level of airborne contamination, and presence of sufficient oxygen. For emergency or non-routine operations (cleaning spills, reactor vessels, or storage tanks), wear an SCBA.

  **Warning!** Air-purifying respirators do not protect workers in oxygen-deficient atmospheres. If respirators are used, OSHA requires a written respiratory protection program that includes at least: medical certification, training, fit testing, periodic environmental monitoring, maintenance, inspection, cleaning, and convenient, sanitary storage areas.
ZENIPOM
Octyldodecyl Dimer Dilinoleyl Alcohol/Succinic Acid/Copolymer, Punica Granatum (Pomegranate) Seed Oil

Protective Clothing/Equipment: Wear chemically protective gloves, boots, aprons, and gauntlets to prevent prolonged or repeated skin contact. Wear protective eyeglasses or chemical safety goggles, per OSHA eye- and face-protection regulations (29 CFR 1910.133). Contact lenses are not eye protective devices. Appropriate eye protection must be worn instead of, or in conjunction with contact lenses.

Safety Stations: Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

Contaminated Equipment: Separate contaminated work clothes from street clothes! Launder before reuse. Remove this material from your shoes and clean personal protective equipment.

Section 10 - Stability and Reactivity

Stability: Stable at room temperature in closed containers under normal storage and handling conditions

Hazardous Reactions: No hazardous reactions known

Conditions to Avoid: No dangerous reactions known under use of normal conditions

Chemical Incompatibilities: None known

Hazardous Decomposition Products: Not applicable

Section 11- Toxicological Information

Acute Toxicity Data: No known toxicological effects

Local Effects: No known toxicological effects

Sensitization: No known toxicological effects

Specific Effects
- Carcinogenicity: No known toxicological effects
- Mutagenicity: No known toxicological effects
- Reproductive Toxicity: No known toxicological effects
- Neurotoxicity: No known toxicological effects

Other Information: Does not present any particular risk on handling under normal conditions of good occupational hygiene practice

Section 12 - Ecological Information

Mobility: No known negative ecological effect; part of the water cycle

Environmental Behavior: Does not disturb the environment

Ecotoxicity
  Effects on the Aquatic Environment: No known toxicological effects

Section 13 - Disposal Considerations

Contaminated Packaging
  Decontamination/Cleaning: Cleaning is not required prior to disposal
  Destruction/Disposal: Incinerate at installation suitable for this type of packaging

**Recommendations About Product:** Contact your supplier or a licensed contractor for detailed recommendations. Follow applicable federal, state, and local regulations!

**Section 14 - Transport Information**

**DOT Transportation Data (49 CFR 172.101):**

- **Shipping Name:** Not regulated
- **Hazard Class:** 1
- **Land Transport ADR/RID (Cross-Border):** Not restricted
- **Inland Shipping ADN:** Not restricted
- **Maritime Transport IMDG:** Not restricted
- **Air Transport ICAO-TI and IATA-DGR:** Not restricted

**Section 15 - Regulatory Information**

**Markings According to EU Guidelines:** The substance is not subject to classification according to the Directives 67/548/EEC and 88/379/EEC. All compounds of the substance are recorded into European inventory EINECS (European Inventory of Existing Chemical Substances)-Directives 79/831/EEC, sixth modification of directive 67/548/EEC.

**International Rules**

- **USA:**
  - **TSCA Inventory Status:** EXEMPT
  - **EPA Regulations:** EXEMPT
  - **State Regulations:**
    - **State:** CALIFORNIA, PROP. 65
    - **Component:** NONE
  - **Germany:** Wassergefährdungsklasse (WGK) : 1 (little polluting)

**Section 16 - Other Information**

**Regulatory Requirements Relative to the Distribution of This MSDS:** In accordance with regulatory requirements, all information in the MSDS must be transmitted by the MSDS recipient to the health authorities, to any party receiving the products and to any other person likely to be exposed to the products.

**MSDS Summary of Changes:** Changes were based on Korean industrial safety and hygiene laws and Zenitech LLC internal rules.

**Liability Statement:** We believe the information contained herein is current as of the date of this Material Safety Data Sheet. Because the use of this information and of these opinions and the conditions of use of the product are not within our control, it is the user’s obligation to determine the conditions of safe use of this product.
